SQL Front + Back

Activity: Express Calculator (20 min)

See Slack for instructions

http://localhost:3000/multiply/10/10

Review: Express Calculator

Demo: Wizarding Schools

Note how the HTML is being generated and displayed

- SELECT from the db
- Iterate over data
- Concatenate HTML
- .send()

Activity: Wizarding School (15 min)

See 02-MagicSchool

Setup db, npm install, run server

Discuss with your neighbor

Demo: Seinfeld

http://localhost:3000/cast

http://localhost:3000/coolness-chart

http://localhost:3000/attitude-chart/relaxed

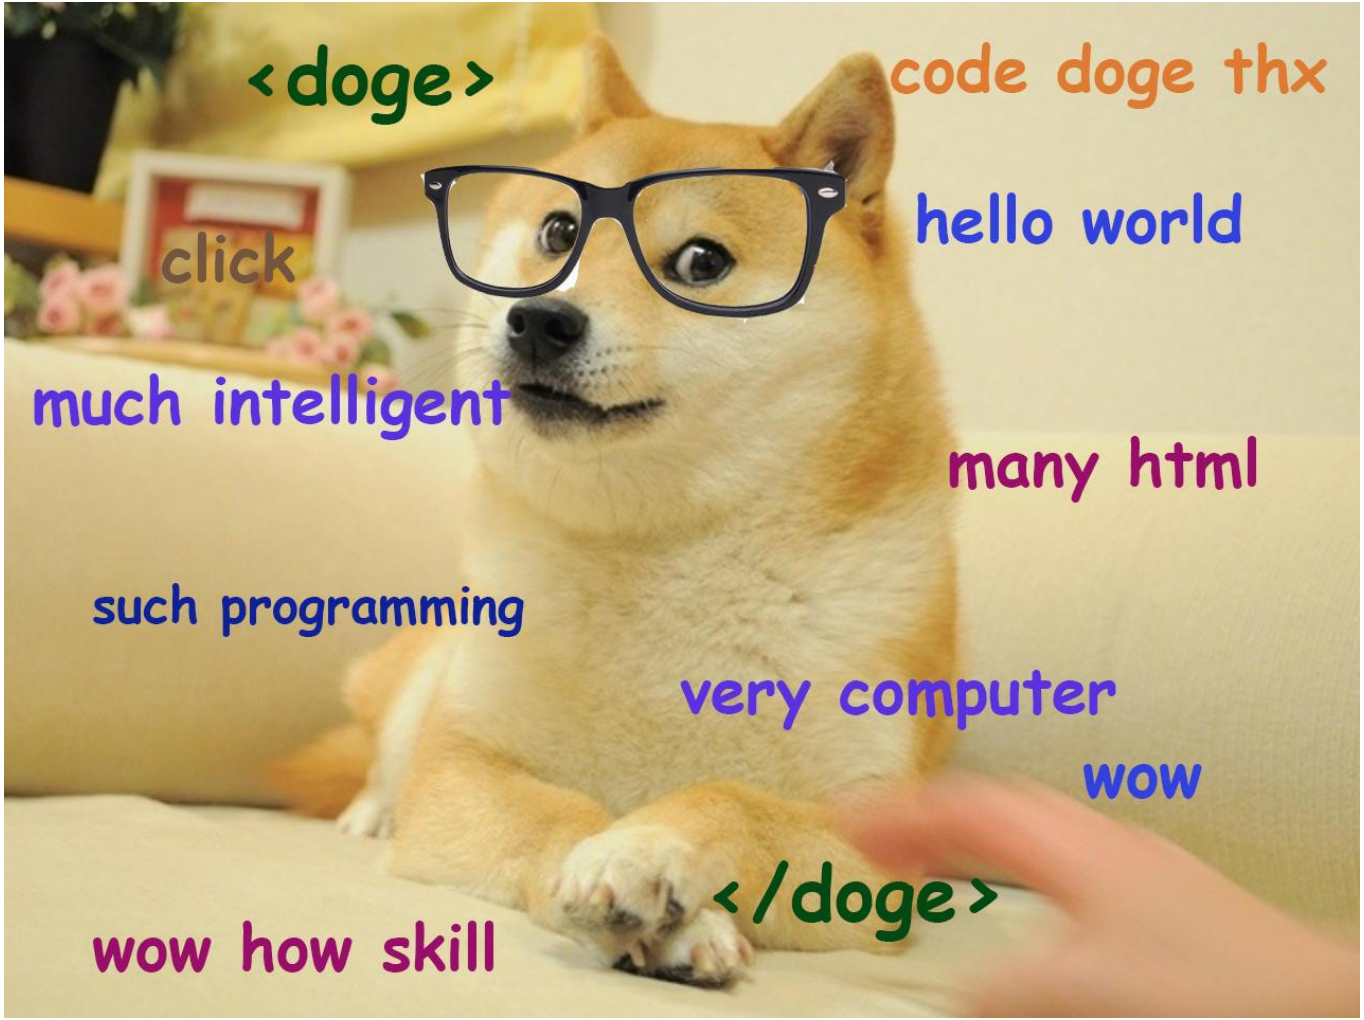
Activity: Seinfeld (20 min)

See Slack for instructions

Review: Seinfeld

SQL + HTML = Bad Idea

Why?



<doge>
code doge thx
hello world
click
much intelligent
many html
such programming
very computer
wow
</doge>
wow how skill

There must be a better way!
